### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lisa Lindquist on 15 August 2005.

The application has been amended as follows:

Claims 41-43 are cancelled.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest a method for detecting the presence and uniformity of a lubricious coating on a medical device having all of the claimed method steps. The closest prior art is U.S. Patent No. 5,667,840 to Tingey et al. Applicant has clearly pointed out that one of ordinary skill in the art would not have been motivated to substitute a different fluorescing dye to be used with the lubricant, since Tingey et al. '840 is clear that the dye used must have a degree of solubility in polydimethylsiloxane and only lists coumarin dyes (applicant's arguments of 13 June 2005, page 6, paragraphs 1-3). Therefore, claims 1, 12, and 40 are allowable since one of ordinary skill in the art would not have been motivated to modify Tingey et al. '840 to incorporate different dyes that are not known to be soluble in polydimethylsiloxane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
